## GERMANY AND THE BOERS

Berlin, August 5. — Events in the Transvaal are keenly watched here. The press comments liberally on the week's news. No doubt a strong undercurrent of sentiment exists, shared by every class in favor of the Boers against Great Britain. Every German one meets expresses this freely, and the press, except the portion inspired by the Government, sides more or less strongly with the Boers.

It is currently reported, in political circles that his majesty, on the occasion of the visit of Cecil Rhodes to Berlin, said: "The Boers are past saving," adding that "they owed their misfortune to their own stubbornness," and that there was no intention on the part of Germany to call a halt to England.

"And what a wealth of enjoyment did the first detachment of America's army of invasion derive from this day at Honolulu." From On To Manila.

### Gold Standard for India.

London, August 8.—In the House of Commons today the Secretary of State for India, Lord George Hamilton, in introducing the Indian budget, said that, after careful consideration, the Government had deliberately concluded that a gold standard was required in the interests of India and that they would not be deterred from prosecuting this policy by all the means in their power merely because the next phase in the advancement was coincident with abnormal or temporary failure of the recommendation.
